SKILLS SUMMARY

- **Languages**:   C Programming, Python, Java, JavaScript
- **Frame Work**:   Streamilt, Djnago
- **Libraries** :   React, Node.js
- **Soft Skills**:   Event Management, Writing, Public Speaking, Time Management

EDUCATION

- **Karunya Institute of Technology and Sciences**   Tamil Nadu, India
  Bachelor of Technology - Computer Science and Engineering;   *Sept 2022 - Present*

PROJECTS

- **Automatic WhatsApp Messaging System**:   I have made a python program which is able to send the same messages to a list of members. It was also able to send Images
- **Election Voting System using the Tkinter GUI interface**:   This is a system which help us to calculate the count of vote for the respective candidate and it will automatically shows the winner of the Election.
- **Video Conferencing**:   Currently Working on a Video Conferencing website designed specially for the Interviewer

SUMMARY

- I'm a second-year Computer Science student at Karunya Institute of Technology and Sciences with a strong foundation in Python and markup languages. Passionate about web development , I actively explore technologies like React and Django.

  Experienced in hackathons and coding competitions, I excel in high-pressure situations and consistently elevate my skills in backend development. My primary focus is on creating robust and efficient systems that power seamless and reliable functionalities. Excited about contributing to the evolving field of web development, I'm eager to make a meaningful impact.
